

Summary of Modifications to HMT_2018_2060
Uncertainty Quantification in Non-Equilibrium Molecular Dynamics
Simulations of Thermal Transport

By

Manav Vohra, Ali Yousefzadi Nobakht, Seungha Shin, Sankaran Mahadevan

We thank the reviewers for their assessment of our manuscript. Below is a summary of modifications made to our original submission in response to the reviewers suggestions.

Where possible, key modifications have been highlighted in blue in the revised manuscript.

We hope that with these modifications the paper is found suitable for publication in the *International Journal of Heat and Mass Transfer*.
